PRESS RELEASE

DATE: Monday May 23, 2022

Warren County Engineer's Office 2022 Construction Season

Lebanon, Ohio – Warren County, Ohio – The Warren County Engineer, Neil Tunison, would like to remind you that warmer weather brings orange barrels and road closures. Our office is committed to maintaining a safe county road and bridge system throughout Warren County. We would like to bring to your attention a terrific tool we recently released to help you prepare for upcoming projects. Our website (<http://www.wceo.us/>) has a “Project Information” link that brings you to, what we like to refer to it as, our Story Map. This is an interactive map that has detailed information about current, upcoming and past projects throughout Warren County. We encourage you to view this map regularly throughout the year.

On our main website page, we also have all press releases for road closures. Please use the News Release tab under the Information tab at the top. This may be a good location to view if the road closure does not appear on our Story Map.

Our office encourages drivers to stay alert and take your time when out on the road. We consider it a privilege to serve Warren County and to help you get around our beautiful county.

For more information, visit <http://www.wceo.us/> or contact WCEO at (513) 695-3301.

About the Warren County Engineer

County Engineers in Ohio are required by law to be registered as both Professional Engineers (P.E.) and Professional Surveyors (P.S.) They are responsible for the maintenance and construction of county roads and maintenance and construction of bridges on county roads, township roads, and certain streets within municipalities. They are also responsible for maintaining land surveying records, checking the accuracy and adequacy of recorded land transfer documents, and establishing or re-establishing certain land survey monuments.
